Derived from: Copper EDTA, Manganese EDTA, and Zinc EDTA

PRODUCT PROPERTIES:

Analysis:	.4Cu-.6Mn-3.5Zn
Weight:	9.43 lbs. per gallon
Specific gravity:	1.13 kg/L
pH:	6.5-9.0
Appearance:	light blue liquid
Odor:	slight musty odor

GENERAL PRODUCT INFORMATION:

Longnecker CornGrow liquid fertilizer is manufactured with 100% fully EDTA chelated copper, manganese, and zinc. Unlike other micronutrient sources such as complexes, partial chelates, and natural organic complexes, Our EDTA chelated micronutrients are 100% available to the crop. Other micro sources contain too little complexing agent and undergo major chemical changes, delivering significantly less micronutrient in a form available for plant uptake. While these sources of micros may offer cost savings at first, they can actually create deficiencies for lack of availability.
